**The Telling**-Eden Winters 2013-07 Time in Iraq cost Michael Ritter some of his hearing and a friend whose death he feels responsible for. He'd left Alabama hoping to escape a dull, small-town life, only to return four years later, lugging a duffle full of personal demons. Cookesville,

Alabama isn't the most welcoming place on earth, particularly for a gay, Hispanic student wanting nothing more than to earn his degree and get back home to Texas. An image of a somber young man that he knows only by name and the stories told by an adoring sister comes to life when Michael returns home, just as Jay is already half-way to losing his heart. Michael's biggest battle lies ahead, and he'll need all the help he can get to find his way in a world where he no longer fits in. Jay's not sure where he fits either, but it could be next to the war-torn soldier who needs his strength.

**Fundamental Statistics for the Social and Behavioral Sciences**-Howard T. Tokunaga 2018-09-12 Fundamental Statistics for the Social and Behavioral Sciences, Second Edition, places statistics within the research process, illustrating how they are used to answer questions and test ideas. Students learn not only how to calculate statistics, but also how to interpret and communicate the results of statistical analyses in light of a study's research hypothesis. Featuring accessible writing and well-integrated research examples, the book gives students a greater understanding of how research studies are conceived, conducted, and communicated. The Second Edition includes a new chapter on regression; covers how collected data can be organized, presented and summarized; the process of conducting statistical analyses to test research questions, hypotheses, and issues/controversies; and examines statistical procedures used in research situations that vary in the number of independent variables in the study. Every chapter includes learning checks, such as review questions and summary boxes, to reinforce the content students just learned, and exercises at the end of every chapter help assess their knowledge. Also new to the Second Edition -- animated video tutorials! Watch the demo video from Chapter 2 now! Corrections: there are a small number of corrections for the text's Appendix posted here.

**Landmarks in Humanities**-Gloria Fiero 2012-01-11 Landmarks in Humanities is a single-volume survey of global culture designed to help students of humanities, cultural history, and history of the arts to understand and appreciate the relevance of historical works and ideas to their own daily lives. In chronological sequence, Landmarks guides students on a journey of the

most notable monuments of the human imagination and the most prominent ideas and issues that have shaped the course and character of the world's cultures from prehistory to the present. The landmarks that mark this journey are the great works of their place and time and, in some cases, of all time. The text reflects the author's extensive background in the study of Humanities, which has enabled her to craft a narrative that is at once brief and comprehensive, giving students a thorough understanding of the interrelatedness of various modes of expression—art and architecture, literature, philosophy, and music--without overwhelming them with detail. Each of the text's fifteen chapters is centered on a key idea related to the period being discussed, and contains a series of valuable pedagogical features including timelines, high-quality maps, and boxed material. Each chapter also takes a unique cultural or historical point of view, often through primary sources, the stylistic relationship between two or more images and ideas or between text and image, and contemporaneous non-Western cultural landmarks and cross-cultural influences. In this edition, each chapter opens with "A First Look" at a landmark work that illustrates the key idea of the chapter and acts as a cultural guidepost to that chapter's overarching theme. This new feature explains the artwork's significance as a landmark in its own time as well as in ours.

### **A Guide to Starting Psychotherapy Groups-**

John R. Price 1999-09-10 How does a therapist go about starting a psychotherapy group? In this practical guide the reader finds the elements, both attitudinal and procedural, needed for starting a therapy group. **Cross-Cultural Connections**-Duane Elmer 2009-09-20 With the new realities of global interconnectedness comes a greater awareness of cultural diversity from place to place. Besides differences in food and fashion, we face significant contrasts of cultural orientation and patterns of thinking. As we travel across cultures, what should we expect? How do we deal with culture shock? And can we truly connect with those we meet? Experienced cross-cultural specialist Duane Elmer provides a compass for navigating through different cultures. He shows us how to avoid pitfalls and cultural faux pas, as well as how to make the most of opportunities to build cross-cultural relationships. Filled with real-life illustrations and practical exercises, this guide offers the tools needed to reduce apprehension, communicate effectively, and establish genuine trust and acceptance. Above all, Elmer demonstrates how we can avoid being cultural imperialists and instead become authentic ambassadors for Christ. Whether you are embarking on a short-term mission trip or traveling for business or pleasure, this book is both an ideal preparation and a handy companion for your journey.

**Big Data in Cognitive Science**-Michael N. Jones 2016-11-03 While laboratory research is the backbone of collecting experimental data in cognitive science, a rapidly increasing amount of research is now capitalizing on large-scale and real-world digital data. Each piece of data is a trace of human behavior and offers us a potential clue to understanding basic cognitive principles. However, we have to be able to put the pieces together in a reasonable way, which necessitates both advances in our theoretical models and

development of new methodological techniques. The primary goal of this volume is to present cutting-edge examples of mining large-scale and naturalistic data to discover important principles of cognition and evaluate theories that would not be possible without such a scale. This book also has a mission to stimulate cognitive scientists to consider new ways to harness big data in order to enhance our understanding of fundamental cognitive processes. Finally, this book aims to warn of the potential pitfalls of using, or being over-reliant on, big data and to show how big data can work alongside traditional, rigorously gathered experimental data rather than simply supersede it. In sum, this groundbreaking volume presents cognitive scientists and those in related fields with an exciting, detailed, stimulating, and realistic introduction to big data - and to show how it may greatly advance our understanding of the principles of human memory, perception, categorization, decision-making, language, problem-solving, and representation.

**Group Dynamics**-Donelson R. **Cultural Apologetics**-Paul M. Gould 2019-03-12 The post-Christian world we inhabit today presents us with a mundane and disenchanting view of reality. Under the sway of materialism and science, we have been left with a way of seeing, thinking, and living that has no place for beauty and wonder. We now live in a world bereft of magic and mystery. Many--including many Christians--no longer perceive the world in its proper light. As a result, the Christian imagination is muted. Moreover, the church has grown anti-intellectual and sensate, out of touch

with the relevancy of Jesus and how to relate the gospel to all aspects of contemporary life. As a result, the Christian voice is muted. In this age Christian wholeness remains elusive, blunting the church's ability to present a winsome and compelling witness for faith. As a result, the Christian conscience is muted. Cultural Apologetics addresses this malaise by setting forth a fresh model for cultural engagement, rooted in the biblical account of Paul's speech on Mars Hill, which details practical steps for reestablishing the Christian voice, conscience, and imagination. Readers will be equipped to see, and help others see, the world as it is--deeply beautiful, mysterious, and sacred. With creative insights, Cultural Apologetics prepares readers to share a vision of the Christian faith that is both plausible and desirable, offering clarity for those who have become disoriented in the haze of modern Western culture.

**Measurement of Executive Function in Early Childhood**-Clancy Blair 2016-02-04 During the past decade, a rising interest has emerged in aspects of the broad construct of executive function (EF) in childhood. This has transpired as research has discovered that the development of EF is particularly rapid during early childhood, and that the healthy development of EF appears to play a key role in children's developing social competence and academic and social readiness to attend school. The articles presented in this special issue help advance our understanding of the development of EF, as well as the challenges researchers face when attempting to characterize an aspect of cognition in very young

children. Ultimately, this special issue illuminates the many ways in which children come to exhibit age-appropriate levels of social and cognitive competence.
